

Mounting Tool for Wafer-type Armatures

Who does not know the problem to exchange wafer-type armatures or their seals under small place conditions? The mounting tool for wafer type armatures (WSZ), produced by FWA, makes life easy to spread the flange with only manual force and to change the wafer-type armature.

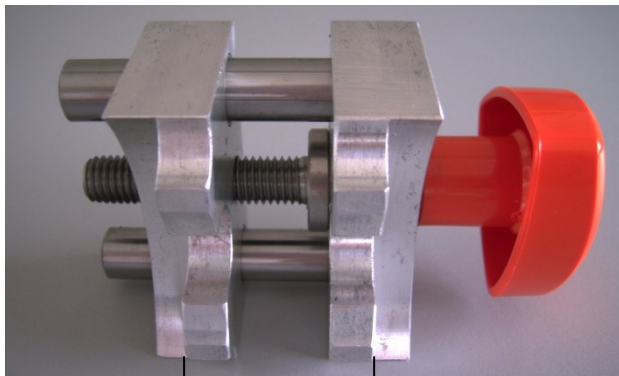

Examples for wafer-type armature are flaps, check valves, strainer, compact valves, ball valves.

Important is nominal diameter ND and width.

model	WSZ 092-70-DK	WSZ 110-70-DK	WSZ 142-70-DK
flange outer Ø	92 mm	110 mm	142 mm
width	30....70 mm ask for 140 mm	30....70 mm ask for 140 mm	30....70 mm ask for 140 mm
use for ND	15, 20, 25, 32	(32), 40, 50, 65, (80)	50, 65, 80

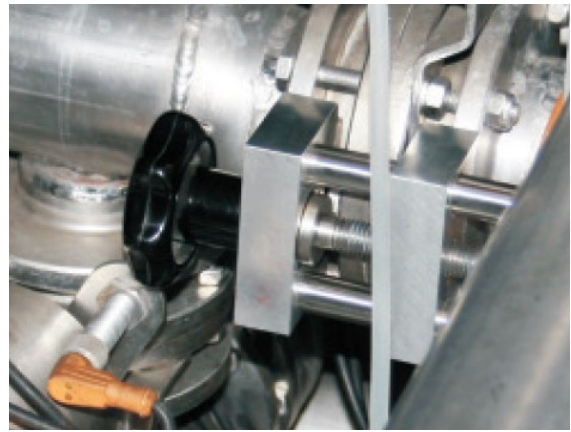

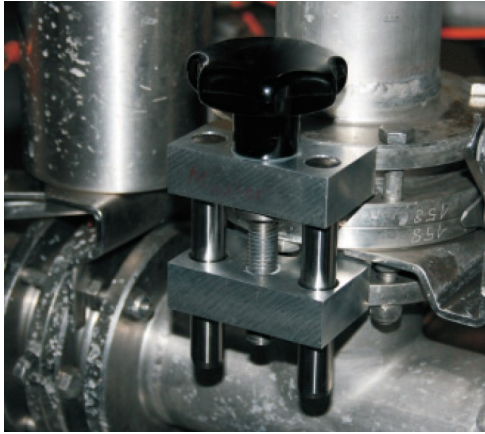

Features

- power amplifier
- maintenance free guidance
- patented design
